The invention is directed to methods to treat side effects of anticancer treatment; new claim 54 is similar to claim 38 as originally filed; claims 57 and 60 are analogous wording of this claim. This application is filed in order to prosecute subject matter related to JBT 3002 which appears of more clinical interest than MTP-PE that was pursued in the parent. No new matter has been added and entry of the amendment and prosecution on the merits are respectfully requested.
